STAFF OF HERMES

This is the Staff of Hermes: [L1]

This symbol should look familiar. However, you may not have known it as the "Staff of Hermes", which is its true origin. Hermes, as you may recall, is a Greek "god". So, what is the relationship between a Greek god and your friendly family doctor. Let's look closer and see if we can find out.

WHAT ARE THE HERMETIC ARTS

The Hermetic Arts are the secret teachings of Hermes, passed down over the ages mainly by word of mouth from teacher to student. The Hermetic Arts are secret. To learn them requires a solemn oath of secrecy. Violation of this oath is generally punishable by death/

Today, there are schools that teach the Hermetic Arts. One of them is <https://academyofhermeticarts.org/>

This school lists its primary areas of study as ALCHEMY, ASTROLOGY and MAGICK. The subcategorizes are ESOTERIC PSYCHOLOGY, OCCULTISM and MASONRY.

The web site does not discuss secrecy oaths, but does mention "initiations" which will most likely

involve secrecy oaths.

HIPPOCRATIC OATH

Remember the "Hippocratic Oath" - Do No Harm? Well, that's not what it says. It says: "Protect Inviolable the Secrets of Medicine". Didn't know that?. Your "trusted" doctor does. And now you do too. You also know that medicine evolved from the teachings of Hermes and the Hermetic Arts all of which are guarded secret teachings which have been protected from the eyes of "ordinary" people for generations. If you have felt that doctors behave as superior beings who are somehow "above" you, you now know the reason for this lofty attitude,

OPERATION PAPERCLIP

Operation Paperclip was the codename for the operation to grab German scientists and doctors at the end of WWII. These people were in demand because they were generally smarter than the native equivalent in other countries. The United States got most of them. NASA was created by German scientists. German doctors started the MK Ultra (Mind Kontrolle) project consisting of bizarre medical experiments on unsuspecting people with the primary purpose of developing effective mind control / brainwashing techniques. We would never have known about this project if it had not been exposed by the Church Commission.

As we said, the Germans were smart. However, they were also German and subscribed to the NAZI belief system. As they rose to positions of influence in the US, so did their beliefs.

NEW WORLD

The "New World Order" has been mentioned throughout recent history. Basically, the New World is a belief system in which a small group of people called "globalists" advocate a "perfect world" which will be achieved by killing everyone except a pre selected group of five hundred million people. This is a global plan and every country is responsible for reducing their population to their assigned quota. According to Al Bielek, the quota for the United States is twenty million. The chosen people have "a ticket" which is permission to live in the new world. No ticket - no life. Videos by Al Bielek have been censored, however you can still find some on the site brighteon.com. This site hosts banned videos and is managed by the author of naturalnews.com which is also a banned site. You can also find Al Beilek videos and other material on the search engine yandex.com

Names for the new world plan have changed over the years. Originally, the plan was called "The Great Culling". Later, the plan was upgraded to "Agenda 21". Currently, the plan is called "Agenda 2030".

This is a more specific name and specifies the timetable. This ten year plan began around the year 2020 and is scheduled to complete before the end of 2030. The new world is scheduled to begin on January 01, 2031. At least, that's the plan.

References to the new world have surfaced over in both fiction and non fiction sources. Jesse Ventura, in his TV series "Conspiracy Theory", interviewed a female medical doctor who knew all about it. At that time it was still called The Great Culling. The fiction TV series, "Sliders", features a world with a controlled population of five hundred million in the episode titled "The Lottery".

A very detailed master plan can be found at <https://rense.com/general94/nwoplans.htm> This plan - which was documented by a doctor in 1969 - which may have been composed by a doctor or a group including doctors. The instructions for the new world mirror specific things you notice today.

EUGENICS

Eugenics is the philosophy and practice of "purifying the race". This "Master Race" idea is a basic NAZI philosophical concept. It shows up in various forms. In the US, the practice of covertly sterilizing young girls <https://www.uvm.edu/~lkaelber/eugenics/> was active between 1934 and 1945. During this period, a young female could be sterilized if an "expert" predicted that any children the girl bore in the future would be somehow "defective". In practical reality, this was generally not true. When the sterilized female matured, she married and tried to start a family. Only when she consulted a doctor did she learn she could never have kids. After the overt practice ended, victims sought damages. In a few cases, they got token damages of a hundred dollars or so but in most cases the states basically said, "Tough luck".

If you search for "eugenics" using yandex.com the whole first page of results references Bill Gates. One of the better results is <https://tottnews.com/2020/04/09/gates-family-eugenics-covid-19/>. It appears that Gates and his family are and have been into all this NAZI stuff. Since other investigators have documented this material, there is no need to repeat it here. Check out the links on Yandex and get ready to be surprised.

There are some other predictions from days past. One of the more unique concerns people with the special genetics "XXXX". It was predicted that these people would grow up to be "mass murderers". The "experts" recommended that anyone with this genetic configuration should be locked up somewhere to prevent this. The prediction was false, of course, and the plan was never implemented. However, this illustrates the unfortunate consequences which can occur when you rely on "experts".

COVID

SARS-Covid-19 is a designer virus created to depopulate the planet in preparation for the New World Order. The prefix SARS refers to a previous virus. No one is concerned with SARS today, however researchers worked with SARS for over fifteen years attempting to develop a vaccine with no success. Since it was presumed impossible to immunize people against SARS, it was selected as the perfect candidate to serve as the basis for a deadly virus to use in the globalist depopulation scheme.

The basic design for the killer virus was reportedly developed by Anthony Fauci at the National Institutes of Health (NIH) in the United States. Next, a laboratory in Winnipeg, Canada was reportedly used to create the basic virus. Next, everything moved to the Wuhan lab in China for Gain of Function research. Everything was financed by NIH in the US.

The choice of China as the final destination before release appears to be the fact that China would host the Olympics. The perfected virus was released at the Olympics and infected everyone there. Since people from all over the world attend the Olympics, the planet was quickly contaminated. The infected people, of course, had no idea that they were infected and so returned to their families, friends and co-workers and infected them. This is how COVID got started.

The COVID Vaccine has absolutely nothing to do with protecting people from the virus. The M-RNA vaccine is designed to kill a person - generally anywhere from three to five years after the victim is injected. Analysis of people who have died indicates the primary cause is blood clots. The "vaccine" was likely developed and stockpiled before COVID was created. There is no known antidote for the "suicide vaccine".

ORGAN TRANSFER NETWORK

The organ transfer (organ trafficking) network is a sophisticated national (and international) system to get fresh spare parts from the source (victim) to the recipient who is willing to pay for them. The economics of this is unique. The actual parts are free. The source is never compensated. The recipient, however, pays handsomely. People who work in the health industry can't help but know this because they see it as illustrated in this article <https://www.eyeopeningtruth.com/great-reset-internet-of-bodies/>

Whenever you are in a hospital or similar medical institution, you will be tested and "typed" and this information will be fed into the available organ database. If the system gets a "hit" - which means someone out there wants some of you - the procurement system is activated. What happens next is determined by many factors such as how old you are, how rich you are, how important you are, what influential secret societies you belong to and so on. Not rich, not young, not important = not alive.

SPARE PARTS SOURCES

There are a variety of spare parts sources. Local coroners have the best shot at getting their hands on freshly dead bodies. However, the very best source is hospitals because the part you need is working in its natural owner. If you are rich and influential, this person will be sacrificed (murdered) and the part you need will be implanted. Medical secrecy protects everyone. Everything is a secret. This is the real function of the HIPPA laws. They are supposed to protect patients, however they really protect hospitals and medical facilities.

It is interesting how the phrase "sacrificed to science" is used. Science is treated like some mythical god who demands human sacrifices. Saying this sounds so much better than "murder" which is what is really happening.

ECONOMICS

You live in a country [US] which values money above human life. The world was not always this way but it is now. The three fundamental principles of communism, Dialectical Materialism, Economic Determinism and Scientific Atheism dominate your world and control your life. When an artist went back when hand painted the ceiling of a temple, for example, he was not looking out the window at a sundial or thinking about money. He was thinking about doing a good job. This attitude no longer exists.

You have a life, desires, accomplishments, friends and loves. None of this matters to the outsider. To the outsider, you are a potential source of profit - nothing else. You need to be aware of this in these times because your life literally depends on this.

This attitude extends to your health. Are you "worth keeping alive"? Would society be better off if you weren't here? How much money can we make off of you? How much are your parts worth? These are the likely questions in the mind of those you meet along the way.

As you go through life you need to be mindful of this reality.

YOUR VALUE AS A PARTS SOURCE

How much are your parts worth? In most cases, you are worth much more if you are carved up and sold for parts than you are as a complete, living being. This is a problem if you live in a materialistic society which values money above all else. You could be walking around with an invisible wanted poster on your back and the medical bounty hunters are watching - looking for a chance to collect the reward.

Several factors determine your value. Unique tissue type will likely bring the highest bounty since your "model" is hard to find. Of course, you don't know this. You think you are just another person. You

don't see the greedy eyes watching you.

Another factor is age. It doesn't matter how special you are if you are too old to provide functional parts. If you made it to a ripe old age you are home free from most medical terror. Unfortunately, however, perhaps not all. The cosmetics industry uses human tissue and fluids to make their beauty products. The phrase "no artificial ingredients" could mean you are "wearing" your grandparents. Age doesn't matter for these guys.

Ideally, you will be a young kid who dies in some accident and is close enough to some "hospital" to be delivered warm.

KNOWLEDGE

Perhaps the best way to get started is to return to the beginning of the present epoch as outlined in the KJV Bible. Here, in Chapter 6, Verse 4, we read:

There were giants in the earth in those days; and also after that, when the sons of God came in unto the daughters of men, and they bare children to them, the same became mighty men which were of old, men of renown.

Well, this is interesting. Here, we have two classes of people, the "Son's of God" and the "Daughters of Men" and they are genetically compatible enough that the Son's of God can mate with the Daughters of Men and produce children. Any creature that has a Soul is a Son of God. God's children are Souls - nothing else. Souls are eternal creatures. Everything else is temporary. The Daughters of Men do not have Souls. However, they would have an increased amount of alien DNA as compared to the ordinary offspring in the Daughters of Men group. Consequently, they are referred to as "mighty men". The Son's of God appear to have left Earth and the planet is dominated by the two subgroups consisting of "ordinary" daughters of men and "DNA enhanced" daughters of men.

The other group mentioned - the "Giants in the Earth" group" - obviously predates humanity. We know this group still exists thanks to Admiral Byrd who accidentally discovered them under the ice in Antarctica over one hundred years ago. The Bible describes them as "giants", however this appears to be a mistranslation for something like "great intelligence" since Byrd reported ordinary sized people.

So, why is all this so important today. It is important because the Earth is dominated today by creatures who do not have Souls. Souls link all life forms to Nature. A creature with no Soul has no legitimate guidance and therefore wanders off in some random direction. God recognizes Souls but does not recognize Soulless creatures. Since it is impossible for such creatures to comprehend the existence of

God, they will adopt some form of Scientific Atheism for guidance.

Scientific Atheism is a sort of "we know nothing" religion. It offers simple explanations for phenomenon. Everything is an "accident". You are an accident. The Universe came to exist by accident. Everything in the Universe is an accident. There is no "creator" - it is all random chance.

Scientific Atheism is now an accepted religion. The religion is "Humanism". It asserts that even though there is no God or any type of "Divine guidance", people should be nice to each other - because it's nice to be nice - and worship logic (like Mr. Spock) and trust Science to show the way forward.

This is the world you live in today and how and why this situation came to exist.
