## **STRATEGY OF EMOTIONAL MANIPULATION AND CONTROL AS INSTRUMENT OF THE DEEP STATE AGENDA**

You may have noticed that politicians - in public - do not rely upon logic and reason. Instead, they rely on techniques designed to stimulate the emotions of the masses without imparting any hard, verifiable facts in the process. They scream, wave their hands, pound on tables and look real serious but convey

essentially no real information.

Politicians need to get elected and, to do that, they must compete with other politicians. However, all these people - in private - are friends. They belong to the same secret societies and exclusive clubs and are intimate - sometimes quite intimate - with each other. So, they would never want to use seriously damaging information - which they know - against another member of the "brotherhood". Consequently, they compete using emotionally charged "silly" arguments which have no real effect upon their opponent but give the "sheeple" the impression they are in some type of heated competition.

A politician will talk for hours but, in essence, say essentially nothing. They will gladly answer your questions and, for the moment, you may feel they did. Only later will you realize the answer had no substance and likely was on some completely different subject altogether.

It is obviously an art they learn somewhere because they are all quite good at it.

You only have to put on an impressive show for a short time to get the "sheeple" sexed up to go along with whatever you want. Once you get elected, get some law passed, or get another war started, the masses are stuck with the situation and you can just become "unavailable" and let security guards deal with any who object. You have what you want now - screw the people - you never cared about them to begin with.

## **FAKE GOVERNMENT**

Although the Founding Fathers wrote beautiful, inspiring literature about democracy and freedom for all, it is doubtful that many - if any - actually believed this. These were "corporate" men and corporations are definitely not democracies.

Today, academia officially classifies the United States as an oligarchy - a society where the rich rule and the poor live under bridges and inside large sewer pipes. The recent invention of the phrases "too big to fail" and "too rich to jail" is a pretty clear indication that the government has surrendered control of the country to corporations and billionaires and is no longer in charge of the country.

Actually, "oligarchy" is a polite description of the present situation. In reality, as we shall see, the United States has become a Nazi state and the classic Nazi belief systems are quietly being implemented at all levels of society.

## **IMPLEMENTATION OF THE NAZI AGENDA**

World War II dramatically altered the United States. It was changed from whatever "lofty" ideals it may have once held (according to writings of the Founding Fathers) into a Nazi dictatorship. You see, the

Nazis actually won WW II and are now in total control of the US.

Germans are smart and were far beyond the US in technology.

## **FAKE FIRST FAMILY**

Perhaps the best fake occurred during the Obama presidency. Michelle Obama is a "tranny" [2]. It is not exactly a secret but mainstream news - totally under government control - won't touch that story. When Joan Rivers told the truth in the presence of reporters [3], she was promptly murdered by doctors. The government kills many people using their "trusted" doctors to do the deed. No one could get close enough to Stalin to kill him - but his doctor could and did. This idea of using doctors to kill is by no means new.

There are numerous references to Michael Robertson a.k.a. Michelle Obama on the internet if you are interested in researching this. Like Joan Rivers said in her last public statement before the government killed her, "It's an open secret."

## **THE FROZEN PLANES**

In areas where it is constantly cold - like Alaska - the United States maintains a fleet of "frozen planes" [1]. The planes are fueled and ready to go. They are populated by appropriately dressed cadavers and equipped with explosives to blow up the plane when the time comes. Here is how this scam works: Whenever the United States wants to provoke some international incident, it uses one of these planes. No one is alive on the plane. Everything is remote controlled. An identical plane takes off from "somewhere" with real live people. However, they are all government employees, agents or trusted assets. There are gaps in the ground radar net which is basically a bunch of circles. Most overlap but there are places - "holes" - where they do not. Of course, the government knows exactly where these holes are. The real plane and the "frozen" plane both fly into one of these holes. Then the transponder codes are switched. The plane with live passengers - with its new identity - safely lands somewhere and the passengers quietly "disappear". The frozen plane proceeds to some preset point where the US wants to fake some dramatic international incident where it is blown up by remote control. Then this "tragedy" is blamed on some other country or group as a pretext for whatever the "script" calls for and the event is further dramatized by the state controlled news media.

Sometimes, things don't go exactly as planned. For example, in the case of flight MH17, which exploded over Ukraine, the plan was to blame everything on Russia - and still is. However, since the crash occurred over land and witnesses were close when bodies fell from the sky, some witnesses noted that there was something unusual about these bodies because they stunk and appeared to have been dead for quite some time. These observations got brief coverage on news outlets not under the control of the US. Then, all evidence was quickly suppressed and there is still no definitive conclusion today although

this is an incident from 2014. Of course, the United States insists that it was "all Russia's fault somehow", because this is what the original script called for and they never deviate from the preplanned script.

However, now that we know how these things really work, the truth is obvious. Unfortunately, most Americans have not yet realized that the United States lies about everything, generally with multiple "cover stories".

## **PEARL HARBOR**

Pearl Harbor did actually occur but the US government knew all about it in advance because it had broken the Japanese codes. The government had more than enough time to prevent pearl harbor but deliberately let it happen in order to emotionally traumatize the US population so that they would agree and support the US entry and participation in WW II - an event that had been planned for quite some time. The US leadership loves war and has been at war for 93% of its history. Of course, ordinary people do not want war. They want a peaceful life. However essentially no world government ever does what the people want, they just promise whatever it takes to get in power and then follow their own agenda.

The United States would never be the same again. Any "delusions of democracy" evaporated during this war. It would take some time for the people to realize this, but most now see the handwriting on the wall.

To begin with, Germans already had advanced technology unknown to the US. They already had particle beam weapons which could literally slice a US destroyer in half [5]. When attacked near Antarctica, they used it. The first US ship sank immediately. However, the US is a slow learner so a second ship attacked and was promptly sliced in two. After that, the US got the message and withdrew.

Realizing that they could not win, the US made a deal with the Nazi's. They would secretly turn control of the US (and its citizens) over to the Nazis in exchange for access to Nazi technology. Under then secret "Operation Paperclip", essentially all of Hitler's top doctors and scientists were secretly imported into the US and given new identities.

Also the "holocaust" was fake. People do die in war. However, Red Cross statistics finally declassified after seventy years show that nowhere near six million Jews died. At most it was a few thousand and likely much less than that. By the way, who gave the Red Cross - a private organization - classification authority. Looks like you just can't believe anything anymore.

Prescott Scherff [6] changed his last name to "Bush" and came to the US to work with and spy on Nicola Tesla. His wife started the eugenics movement in the US where young girls deemed "inferior" were secretly sterilized to help "purify the race" (standard Nazi philosophy) and two of Bush's (Scherff's) sons

would later become US Presidents.

If you look around at the surveillance network that has quietly been installed in the US, you will realize that you now live under the same conditions as the East Germans did under the Stasi secret police. For example, any car manufactured after 2013 contains a hidden transmitter which reports your location to the government. Also any recently manufactured car can be taken over by government agents and directed to do whatever they want - like crash and kill you - and you are powerless to prevent this.

Your life - in the US today - is under total surveillance and control by the state. Freedom is now ancient history.

## **VIETNAM**

Vietnam was purely "war for the sake of war". The "Gulf of Tonkin" incident [4] - the official excuse for the Vietnam War - was a total fabrication and never happened. Since the stupid "average americans" believe everything the government controlled press says, they bought the lies and the result was that over 50,000 young American kids were needlessly slaughtered.

However, Vietnam was also a "multi-use theater". Many secret medical experiments were performed. Since there was a surplus of expendable people, researchers simply built temporary labs where the test animals (Vietnamese men, women and children) would be kept in cages. When an experiment concluded, the researchers gathered up all their data and left. Then, an air strike obliterated all evidence including the test animals. Reportedly, significant progress on the various life extension techniques in use today by the chosen elite were perfected during these experiments. Other various subprojects also existed.

## **9/11**

The agenda for the 9/11 event was planned years in advance. Events such as these are designed to emotionally traumatize the population so that - in an induced state of diminished capacity - they will freely accept things that, in a more rational state, they would essentially unanimously reject.

The buildings involved in 9/11 were brought down by controlled demolition. There were no planes. Government operatives were planted in the crowd screaming about planes hitting the buildings. No one even tried to explain why buildings not supposedly hit suffered the same fate for no apparent reason. After the event, the news outlets (which are totally controlled by the government) worked quickly with sophisticated video editing equipment to produce edited video showing planes hitting the buildings. It is impossible for the planes which were claimed to have hit the buildings to make the maneuvers that would have been necessary to actually do what was claimed. Automatic control mechanisms would have not allowed these maneuvers and any competent pilot would know this but dare not talk for fear of

losing their job or worse (death).

To prepare the buildings for demolition, a group of German engineering students [1] were given an assignment to come to the United States to check and refurbish the insulation on the affected buildings. This is what they were told and what they believed. They had no idea what they were actually doing. They were given what they believed was some kind of insulating paint and told what specific areas (critical joints) they were to paint. What they believed was "paint" was actually "microthermite" (similar to nano-thermite) which was placed in critical areas to prepare the buildings for controlled demolition. Once the buildings had been successfully rigged for demolition, it was time for the government to finalize plans and pick a date and time for the "event".

The choice of the day - 9/11 - was apparently a sort of "tongue in cheek" event since 911 is the telephone emergency code used in the United States. Other countries use similar codes but they are not 911.

Insiders who had prior knowledge rented condos at a safe distance so they could sit out on the balconies drinking their martinis and witness the "spectacle" first hand. Obviously, anyone "important" who worked in the affected buildings was tipped off to stay home that day. No one cared about the rest of the people and also did not care about the first responders who are now either dead or dying. Human life means nothing to the United States unless you happen to be a member of the "chosen elite" - the 1/10 of 1% or perhaps even less than that. They are protected - you are expendable.

The purpose of 9/11 was to condition the masses (known as "the herd") to accept what was to follow: Endless war, death, destruction, torture at an unimaginable level, the effective suspension of all constitutional rights and the establishment of a Nazi - Stasi style police state. You are dreaming if you believe you will ever live in freedom again. It's gone - forever!

None of the countries attacked by the US had anything to do with 9/11. Osama Bin Laden was a CIA asset who would say anything he was told to say.

None of the men held prisoner at Guantanamo know anything about 9/11. This facility appears to be a "MK Ultra" type experiment studying torture. The men selected were all young and the intent appears to be to hold them for life - torture them to near death (medical doctors watch and say when to stop) - then nurse them back to health so they can be tortured again.

The countries attacked had no involvement, however it is likely that Israel cooperated in planning 9/11.

## **SANDY HOOK**

Sandy Hook was once a school. However, it had not been used as a school for over two years. There were no active telephone or internet connections to the building. It was essentially abandoned with tall

grass and weeds everywhere.

The government wanted to do a "simulation" of some crazy kid attacking a school and killing other kids. Sandy Hook was chosen as an ideal location because it was an abandoned school building. The script was written and the various players selected who would participate in the simulation.

Then, someone suggested that it would be useful propaganda to call in the government controlled press and pretend that the simulation was actually a real event. So, trusted press were called in to film the simulation and broadcast it to the stupid "sheeple" and pretend it was real. It worked. However, when analyzed later by calmer, rational minds, "holes" started to appear in the "story" which just would not go away.

Today, you can't find any eye witnesses to this who will talk. They have all just "disappeared". The official FBI statistics for that area for that period of time show zero deaths reported. Now, you could go on and on but this issue has been covered in great detail on the internet and the evidence that all this was fake is pretty much overwhelming. If you are curious you can start by searching using the phrase "no one died at sandy hook".

## **US NEWS CONTROL AND COORDINATION**

When news reporters in the United States finally get tired of telling lies every day and decide to actually tell some truth for a change, they are immediately fired and blacklisted and their careers are ended. You won't see them again on US TV, however many go to the Russian international state network - RT (Russia Today) - where they are free to tell the truth. Some decide to stay and make RT their new home. Jesse Ventura and his son Tyrel Ventura both have their own shows on RT. So do Chris Hedges, Ed Schultz, Mike Papantonio, US comedian Lee Camp, and legendary Larry King. They are there because they can't tell the truth in the United States.

In RT interviews, the reporters excommunicated by US media explain that all news outlets get from five to seven "stories" (propaganda) every day which they must cover. They are allowed to "tweak" them slightly to give the impression that they are actually covering news, but the basic story line cannot be changed. That is why - on the chance you can receive "local" news broadcasts from more than one area - you will see the exact same stories wherever you go.

Mainstream news in the US is under absolute government control and the penalty for daring to tell the truth could be death (Joan Rivers).

## **CONSTANT WAR IS NOT NORMAL FOR ANY LIFE FORM**

There is no life form with the single exception of the homo sapien sapien which lives to kill just for the

sake of killing. Animals kill for food but they don't just run around killing everything they can find "just for fun". Humans do. In fairness, most humans would prefer not to kill. They would - if they really had a free choice - choose a quiet, peaceful life. They can't do that because their government constantly bombards them with hate propaganda and many governments order their young kids to go out and kill some "enemy" somewhere they probably never heard of before. But, they must follow orders. Why? For some reason, they don't ask.

## **COLONIES ARE NO DIFFERENT**

Colonies are being set up on Mars, the Moon, some moons of the outer planets and also in other solar systems. There are no plans to ever tell the general public about any of this. Now, you would think, if you were "starting fresh", planning a new world, that you would choose your best people, your most advanced technology and design a society where life would be peaceful and beneficial to the inhabitants to the best of your ability. This is what the average person would think and desire but it is not what the government thinks.

Instead, the governments are using the new off world colonies as "experiments" and the inhabitants as "lab rats". In his books [5], Herbert Dorsey discusses how Mars is being divided into "zones" where the inhabitants grow up and live in some kind of "designer reality" which has no relationship to truth. The "people" only know about their zone and have no knowledge that other zones exist. Administrators with "all access" clearances are free to move among zones at will and also to travel back and forth to Earth as needed using "Jump Rooms" which provide instant transport.

In one zone, the "people" are programmed to believe that Earth either no longer exists or that exists but is uninhabitable. Other zones use different scenarios. "Real" zones where people are actually allowed to know state of the art truth may exist "somewhere" but Dorsey does not mention them.

In short, the new colonies are set up just like Earth with security levels and compartmentalization to insure stupidity and ignorance. There appears to be no constructive purpose unless you consider deliberately raising humans as lab rats to be a valid purpose.

The United States and Russia are the two main developers of off world colonization. They are essentially the same country when you view them at a higher level. They are inseparable partners and all the nonsense you hear that they are "enemies at each other's throats" is exactly that - nonsense and disinformation. They have been "best buddies" now for many years.
