

EXPLAINING "THE GREAT SATAN" SYMBOLOLOGY

INTRODUCTION

This short documentary is meant to explain why other countries use the phrase "Great Satan" when describing the United States.

RELEVANT POINTS OF FREEMASON PHILOSOPHY

The relevant points of the philosophy of the Freemasons concern their interpretation of the creation narrative in the Christian old testament relative to the knowledge of "good and evil". Recall that GOD told Adam and Eve not to ask for the knowledge of "good and evil". Satan, however, told Adam and Eve to go ahead and get the knowledge and they chose to listen to Satan. The Freemasons believe that the GOD of the Christians is a bad creature because he tried to "hold humanity back" by restricting the knowledge of "good and evil" and they believe that Satan was a good creature and "their savior" because he persuaded Adam and Eve to take the knowledge of "good and evil". Therefore, the Freemasons worship Satan and hate the GOD of Christianity. In a required ritual, the Freemason must demonstrate his hatred for Christianity by spitting upon a Christian bible and there may be other similar rituals along the path.

WHAT DO THE BELIEFS OF FREEMASONS HAVE TO DO WITH THE UNITED STATES

The beliefs of the Freemasons are relevant to the United States because:

1. The Freemasons created the United States and physically designed Washington, D.C. to model a Masonic temple
2. Most of the founding fathers were Freemasons
3. Most US presidents were Freemasons
4. Essentially 100% of the CIA are Freemasons
5. Most members of associated intelligence agencies are Freemasons
6. Most law enforcement personnel at the state and local level are Freemasons
7. Most lawyers and judges - especially at the federal level - are Freemasons
8. Most Senators and Congressmen are Freemasons
9. A high percentage of corporate executives are Freemasons
10. Freemason dominated military contractors would get preference

11. Freemason corporate executives would get preference over non masons
12. The Freemasons interface with other nefarious groups such as the Knights Templar, Trilateral Commission, Council on Foreign Relations, Bilderbergers and the Illuminati

HOW DOES THIS BELIEF SYSTEM TRANSLATE INTO REAL LIFE SITUATIONS

Well, to begin with, a nation whose leadership worships Satan and is, therefore, essentially a representative of Satan or earth, is going to naturally oppose any group or nation which worships "the other GOD", i.e., the GOD of Christianity or any deity with similar attributes such as Allah or Mohammed. The mutual hatred of Christianity may explain the special affinity between the United States and its "mini me", Israel. Freemasons hate Christianity and must demonstrate this in their secret meetings by spitting upon a Christian bible and the Jews, as we all know, murdered Jesus Christ, the father of Christianity.

The alliance of countries who favor Satan would naturally want to annihilate any country or alliance of countries which worshiped "the opposing spiritual power". The United States prefers to wage war in secret. It prefers to quietly infiltrate other countries, destabilize them and then replace their legitimate leader with a CIA puppet leader who will then create some draconian administration to oppress the helpless people. Other countries know all this and that is why they call the United States "The Great Satan". However, because of its effective information control system, ordinary people in the United States generally know nothing at all about what is actually happening. When the US secretly harms another country and that country retaliates somehow, the "average american" is apt to wonder why the US is not liked. The CIA calls this effect "blowback", a newly coined word it invented to describe this situation where another country expresses legitimate anger over a secret attack by the US which is officially denied..

In 2008, Amnesty International listed the United States as the worst abuser of human rights of any nation in the world.

SIMILARITIES TO THE CLASSIC STORYBOOK MODEL OF "SOLD YOUR SOUL TO THE DEVIL"

In the classic model, the person sells his Soul to the devil in exchange for long or indefinite physical life together with power, wealth and material possessions. He loses his humanity in the process but he does not care. The resulting person is "pure evil" and devoid of all compassion. Today, the inner circle in the US has fully realized all of the classic benefits of Satan worship. They live forever using various combinations of consciousness swapping, cloning and temporal manipulation. And, they control all of the wealth of the world through complex economic schemes which provide themselves with every conceivable luxury while others live in unbelievable misery and gradually starve to death.

To illustrate this we choose the real example of Frank Olson. This brief summary is based upon the family web site, <http://www.frankolsonproject.org> ,and the related documentary aired by Link TV,

<http://www.linktv.org> , on its *Spotlight* documentary series. Frank Olson, a US agent, was working in the UK testing sarin nerve gas. They wanted to learn how much sarin it took to kill a person. So, they advertised for volunteers to test "a cure for the common cold" and then gave the unsuspecting people more and more sarin until they died. Frank Olson was overheard remarking that what was being done was not right. He was reported for "suspicion of compassion" - a serious crime for a disciple of Satan. When he returned to the US, an investigation confirmed he was guilty of compassion and so the CIA killed him by following instructions in the official "CIA Assassination Manual" and throwing him out of a high window. They admitted no wrong but did pay the family \$750,000.00. Compassion simply cannot be tolerated in the society of "The Great Satan".

People who somehow find themselves in a high position in US society and are unaware that this society is run and controlled by Satan worshipers can face serious problems. For example, most US presidents are masons but some are not. President Kennedy was not a mason. He could not be because he was a Catholic and the Catholic Church excommunicates masons because masons worship the opposing "god". If Kennedy had been a mason, he might well be alive today because the "brotherhood" would have tried to find some peaceful means of mediating their differences. Kennedy, surrounded by people communicating by secret signs and codes he knew nothing about, was totally helpless. And, since masons believe that anyone who is not a mason does not even count as a person, no mason was overly concerned at the thought of killing him.

WHY DON'T I KNOW ANY OF THIS STUFF

Well, one reason might be that you live in the US because the rest of the developed world is allowed to see documentaries which explain these things. In the US, the general population is thought of as, well, "livestock". They are just things to use and program to do useful work for the leaders and to be killed off when no longer needed. If you could somehow scoop up all of the "ordinary" people of the earth and take them to some empty planet somewhere, they would most likely all get along with each other. Ordinary people simply want a peaceful life and a nice home and family. This was the future offered to them in the beginning when they were told it would be better not to ask for the "knowledge of good and evil".
